

I wish to express my heartfelt thanks to the following souls who put up with my constant revisions and who continued to encourage me to complete this writing;

1. *My Dearest Helen*, who through her brilliant insights and *Unceasing Love for God's Precious Creatures*, has lent greater dimension to every part of this work.
2. *My Children, Michael, Dorothea and Joel*, who always encouraged their Father to continue the search for higher understanding.
3. *Susan McCool*, whose tireless efforts at Wildlife Rehabilitation was and is ...a continuing example of the goodness of Man.
4. *Steven Kaufman, Philosopher/Scientist*, whose brilliant rendition of Space, Time and Consciousness, "**Unified Reality Theory**", and whose kind patience and selfless correspondence greatly helped to focus my thoughts within these last few years towards the completion of this work.
5. *Lou Monte*, who as a stranger to me, came to my house 8 years ago and said to me, "*I am you and you are me – and here is why this is so...*", and then went on to explain in great detail to me his knowledge of the undividedness of the Void.
6. *Michael Hanna, my dear Son-in-law*, who has lived with *Meditative Vision* for as long as I have known him.
7. *My Dear Friends on the Internet, Paege Culver, Sara R. Kelly, Sylvia Taylor, Michelle A. Smith, Clause Janew and Countless Others*, who have selflessly contributed brilliant concepts and actual life experiences towards facilitating the completion of this work.
